Maintain the Quality of Alberta's Crops

BETTER SEED MEANS

Better Yields -- Better Grades -- Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain

in order to reduce the heavy annual losses sustained by sowing inferior seed.

Farmers can co-operate by:

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Boards of Trade, the Wheat Pool, Banks, Commercial Grain Firms, the press, and many other organizations are working in co-operation with a—

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department, and the University of Alberta.

D. A. McCANNEL, Provincial Publicity Commissioner, Secretary.

KNOX CHURCH ANNUAL MEETING

The annual meeting of Knox United Church was held on Monday, February 25th. All departments of the congregation were well represented, and satisfactory reports given. The meeting was opened by a short devotional service led by the minister, Rev. A. E. Hayes, after which Mr. J. Boorman spoke on behalf of the Sunday School, thanking all concerned for the larger quarters given to the School, but adding that further space was necessary in order to take care of the work. This in itself is a healthy sign. One suggestion was that a room be set aside entirely for the Primary department and that equipment in the way of an organ or piano together with small tables be provided. Mention was made of the contributions made towards Missions by the children, also to the Chinese Famine Relief Fund. A vote of thanks was tendered teachers and officers for their splendid work throughout the year.

Alterations on the old Union Bank Building are not being made to accommodate the cash on hand belonging to the Ladies' Aid, but it can be said that 1928 was a good year. A substantial balance was reported, but as all know, a larger portion of this is earmarked for the new Church building. About 31 members belong to the Aid and the average attendance is high.

The Minister reported on behalf of the session and stated that fourteen new members had been received into full communion during the year. The minister expressed the hope that many would join the Church at this Easter season. An opportunity will be given at an early date. The need of enlarging the session to at least five was emphasized that the work might be better distributed and more time be given the Minister for his special work.

The report of the managing board showed a small deficit. This is a good thing, for some have the idea that the Church can be financed on loose collection and occasional small subscriptions. Not today. If the people of the United Church gave a tenth of their incomes there be no need of appealing for "specials," nor wondering how expenses could be met. The idea of stewardship must be emphasized strongly, lest in these days of prosperity the people forget their part in the Kingdom.

A Board of Managers was elected to serve two years, consisting of H. W. Chambers, Norman Clarke, W. J. McCoy, H. Hawkes, Dr. J. L. Clarke, C. Gibbs, Bruce Parker, E. G. Ranton and D. Irwin. Mrs. Evans who had so efficiently acted as secretary for a number of years to the Board asked to be relieved of that duty.

The balance of the evening was given over to the report of the Building committee. The report

American Farmers Interested in Alberta

Letters reaching the Publicity Commissioner's office continue to indicate the interest in the opportunities for settlement in Alberta which is being shown by farmers in the mid-western states. The announcement is made in a letter from A. E. Pilkie, Canadian Government agent at Omaha, Neb., that ten farmers from one district in Nebraska plan to come to Alberta early in the present spring with the purpose of purchasing from 10 to 15 sections of land. Similar encouraging reports are being received from a number of other localities in which exhibits of Alberta agricultural products were shown by the Publicity Branch during the past two seasons.

BETTER SEED CAMPAIGN PLANNED

The use of better seed grain will again be emphasized for the coming sowing throughout Alberta, as a result of the efforts of the committee recently appointed by Hon. George Hoadley, Minister of Agriculture, from representatives of a number of the better farming interests of the province. Following a similar campaign which was conducted last season, a very marked improvement was noted in the quality of seed used for the 1928 crop and it is hoped that this movement can be still further increased in 1929. A number of radio addresses are being arranged and through the courtesy of the press a number of articles written by prominent grain growers will be given wide circulation bringing to the attention of farmers a number of defects in seed grain which should be avoided if their crops are to give the best possible yield.

The efforts of the committee will be centered on the period from March 11 to 16, which will be known as "Better Seed Week." The personnel of the committee includes, H. A. Craig, deputy minister of agriculture, chairman; D. A. McCannel, publicity commissioner, secretary; Major H. G. L. Strange, representing the Canadian Seed Growers' Association and D. H. Galbraith, M.L.A., and Don Bark, representing the Alberta Seed Growers' Association; G. M. Stewart

was received with satisfaction and a printed statement will be given the people in a short time. Also a statement showing detailed reports of all departments and a copy mailed to each member and adherent.

At the close of the business session the ladies served refreshments.

Mr. J. Boorman was a business visitor to Calgary Monday and Tuesday attending the District Telephone Managers' Convention.

FIRST INTERIM PAYMENT 1928 POOL

Under date of March 1st distribution was made of first interim payment on deliveries to 1928 Pool amounting to 12 cents per bushel on practically all grades, except No. 6 where the amount was 10 cents a bushel. In Alberta this distribution to Pool members aggregated approx. \$6,500,000.

In setting this payment a number of features must be taken into consideration by the Central Selling Agency. Since the first year's operation of the Pool it has been the policy to make the first interim payments sufficiently conservative to permit the Selling agency to continue a selling policy that in their opinion may procure ultimately the highest returns to the grower, unhampered by any turn the market may take, when a large volume of crop remains unsold. To pursue such a policy consistently throughout the whole season, the Selling agency must be at all times in a strong financial and market position. Should we at any time make too large an initial or interim payment on any grade the net returns to the grower would probably suffer as a consequence.

Further it is necessary to fix the amount of payment several weeks in advance of actual date in order to take care of the enormous labor required in balancing and closing the accounts of each grower and completing cheques for payment. The Alberta Pool alone has many thousands of individual accounts, and with this recent payment issued over 38,000 cheques, and the greatest care must be exercised to insure accuracy.

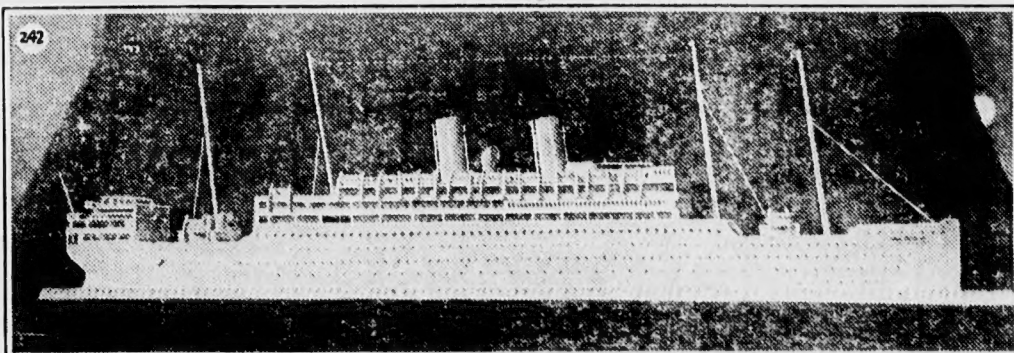

It is absolutely essential that the Canadian Wheat Pool proceed carefully and on sound lines to insure the safety and security of its members. Many farmers in this province have only recently joined because of the fact that the Pool's first five years of operation convinced them that the organization was being administered and conducted along sound business lines, and further realized that the Pool's system of orderly marketing was sound in principle.

of the Dominion Seed Branch; F. H. Reed of the Dominion Experimental Farms; Dr. A. S. Aamodt, University of Alberta, and W. J. Stephen, Provincial field crops commissioner.

A. H. Dedels of the Rosebud Dairy was fortunate enough to win second prize in the milk competition held recently at Edmonton. While he scored higher than last year he lacked one point of winning first prize.

Blazing to new screen triumphs in his first new terrific thrill epic for FBO—Tom Mix and "Tony" in "Son of the Golden West," at the Opera House, Didsbury, Wednesday, March 13th.

How Sweet

The Chief Confectioner of the Canadian Pacific Liner Empress of Scotland decorated the buffet of that ship's Dining Saloon by making a scale model of the 25,000 ton ship entirely of sugar. Lights shine through the portholes, at the mastheads and the green and red port and starboard lights indicate that she is under steam. Harry Astley designer and builder constructed the ship in his spare time—spread over five days—and is planning to enter a scale model of the new Canadian Pacific hotel in Toronto, the Royal York, at the next exhibition in London. He already holds two cups as the prize decorator in sugar at the annual competitions held by the American Hotelmen's Association in New York. These entitle him to the title American Champion—which is absurd, because Harry, like Canadian Pacific sailors whether they are on the bridge or in the bakery, is from Liverpool.

The Red Rose Tea guarantee means what it says. If not satisfied return the unused part in the package and the grocer will refund your money.

Radio Broadcasting In Canada

The Canadian Government recently appointed a Royal Commission to study and make report on the whole subject of radio broadcasting in Canada. That Commission, headed by Sir John Aird, is at present in Europe studying the methods employed in Great Britain and some of the continental countries. It proposes to also study the methods followed in the United States, and, later, will hold public sittings throughout Canada with a view to obtaining the opinions of Canadian citizens.

The importance of this Commission's work can hardly be overstated. Radio has, in a few short years, come to occupy a vital position in the lives of the people, while the future possibilities of this newest form of entertainment, and its importance as a means of publicity, are such that the national interests demand that a well defined policy in the interests of all concerned, but more particularly in the interests of the Dominion itself, be developed with the least possible delay.

The question that naturally arises in the minds of patriotic Canadians is whether or not the radio in Canada is to be dominated by wealthy and powerful private interests in the United States, just as the moving picture business has been, or whether Canada will itself develop an acceptable system of national broadcasting.

It has to be recognized and accepted as a fact that the great United States moving picture corporations control the situation in Canada, if not through actual ownership and management of Canadian moving picture theatres, at least through the making and distribution of the films that are shown in this country. There can be no successful denial of the assertion that because of this control of films it is possible for United States ideas, sentiments, enterprises, modes of living, and general propaganda of all kinds, to be insidiously injected into the lives and thoughts of the Canadian people. In a word, one of the most powerful agencies for the dissemination of ideas throughout Canada is in the hands of private and wealthy corporations in a foreign country.

To a large extent the same situation has developed through the enormous circulation which United States magazines and periodicals of all kinds have secured in Canada. Apart from the effect which the reading matter in these periodicals has upon Canadian thought, the advertising matter constitutes a powerful agency attracting millions of Canadian dollars across the line for the purchase of United States products.

In Great Britain radio broadcasting is under the direction of the Government through the medium of a national broadcasting organization. Owners of receiving sets pay a license fee, and the money thus realized is expended in providing worthwhile programmes. In the United States, on the other hand, broadcasting is in the hands of private interests. Good programmes are nationally broadcasted, but they are paid for through advertising sandwiched in at intervals throughout the programmes. All this material, specially prepared for United States consumption and to meet the requirements and promote the interests of United States business, is carried through the air into hundreds of thousands of Canadian homes every day in the year.

It is not necessary to be anti-American, or in the slightest degree unfriendly to the United States, to nevertheless realize that this is not a good thing for Canada in a national sense. Our Canadian broadcasting stations are widely scattered over the Dominion. They have not the broadcasting power of the big U.S. stations. Nor have they the resources to finance the same type of high class and expensive programmes offered in the United States. Canadian national advertisers have not the same large market to appeal to, and consequently cannot afford to spend tens of thousands of dollars in radio advertising.

Furthermore, do the Canadian people prefer private control of radio broadcasting, financed on the basis of advertising, to the system which finds favor in Great Britain of national broadcasting financed through the payment of a reasonable annual license fee by owners of receiving sets who are the real beneficiaries of the broadcasts?

The influence of radio must be admitted. It already occupies a position along with the newspaper and the moving picture as a medium of information and a source of education and entertainment. It is here, and here to stay, to grow, to develop as perhaps few even now imagine. It will be a power for tremendous good or evil. It is essential that Canada, not neglecting the opportunity it presents, should adopt a wise policy in regard thereto.

The Porcupine gold area in the District of Cochrane, Northern Ontario, occupies first rank among the gold producing areas in Canada.

At the Paris law courts there is an old lady of 80, who has been employed for the last 50 years as shorthand writer, and is still active.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Papered With Postage Stamps

Inn Near Bognor, England, Is Known As Stamp House

Near Bognor, where the King has been removed for his convalescence, there is an inn known as Stamp House. Its walls and ceilings are completely papered with old postage stamps, and festoons of them are looped from one side of a room to the other. The "collection" was started many years ago by a former host of the place, who had a passion for stamps, and papered his first room with them. It is believed as a result of a wager. Under the mellow varnish there must now be hundreds of thousands; and report has it that many in semi-hidden corners are rare and valuable.

BABY NOT GAINING? LOOK TO HIS DIGESTION

Babies can't gain when souring waste in a clogged digestive tract is forming gas, making them colicky, constipated and miserable. Just try the method doctors endorse, and millions of mothers know, and see how your baby improves. A few drops of purely-vegetable, harmless Fletcher's Castoria makes the most fretful, feverish baby or child comfortable in a jiffy. A few doses and he's digesting perfectly and gaining as he should. To get genuine Castoria, look for the Fletcher signature on the wrapper.

Strain Of City Life

The stress of living in the cities is today a more potent factor in causing insanity than the loneliness of the isolated farm and settlement on which emphasis has been so frequently laid in the past in Canada, according to Dr. W. M. English, medical superintendent of the Ontario Hospital, Brockville, with over 800 patients. On the other hand, telephones, motorcars and radios have broken down the isolation of the farmer and settler and insanity through loneliness is no longer found in the degree formerly known.

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Heavy Oil Production

Growing Importance Of Alberta's Oil and Gas Fields

The steadily growing importance of Alberta's oil and gas fields is shown in recently published figures. The production of Alberta wells for 1928, is placed at 489,531 barrels as compared with 321,154 barrels in 1927. Of the 1928 production the Turner Valley field, in Southern Alberta, contributed 410,623 barrels of naphtha, and 70,734 barrels of crude oil, the remaining 8,174 barrels coming from the Wainwright field. The total production of natural gas for the province in 1928 is placed at 14,198,959 million cubic feet as compared with 12,933,801 million cubic feet in the previous year.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Where Nobody Is Young

Nobody is young in the little village of Bursledon, Hampshire. The inhabitants boast that their aggregate age, in proportion to the population, is the highest in the country. There are twenty-seven old folk whose years total 2,115—an average of seventy-eight each. Once Bursledon was a thriving community, but now strawberry growing is the only industry. All the young people have left for more fruitful fields.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

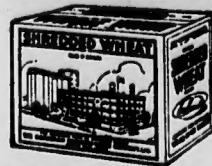

Italy has forbidden the exhibition in any part of the kingdom of films depicting war episodes.

Minard's Liniment for the Grippe and Flu.

W. N. U. 1775

Just Right for This Weather

SHREDDED WHEAT

High in calories and warming carbohydrates—No fuss or bother—just warm in oven and serve with hot milk

Made by The Canadian Shredded Wheat Company, Ltd

The Value Of Birds

Only Protection Country Has Against Insect Enemies

It is estimated that 10,000 caterpillars could destroy every blade of grass on one acre of cultivated land. An insect-infested tree may contain 12,000,000 aphides. The bird population of the country has been estimated at from 700 to 1,000 per square mile, and these birds, few enough in number, are our best protection against the insect enemies which they were intended to destroy. The man who kills these insectivorous birds is helping to destroy his own country.

Internally and Externally It Is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

There are 209 rooms in Buckingham Palace.

Minard's Liniment prevents Flu.

Fishing With Power

Electricity has voided the use of fishing nets in many parts of Germany. Two copper cables, placed one on top and one below the water, are charged with electricity. Fish in the vicinity are electrocuted and come to the surface where they are gathered by these modern fishermen.

There are places in India where there are about 600 inches of rain in some years.

Swing Of High Buildings

The Eiffel Tower (984 feet) swings as much as three feet in a heavy gale; but the Woolworth Building (792 feet) and other tall sky-scrapers do not move more than one and a half inches in high winds.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which Canadians experience during February and March is extremely hard on babies and young children. Conditions make it necessary for the mother to keep them confined to the house, whose rooms may be overheated or badly ventilated. The little ones catch cold and their whole system becomes racked. To guard against this a box of Baby's Own Tablets should be kept in the home and an occasional dose given the baby to keep him fit, or if a cold suddenly grips him to restore him to health again and keep him in good condition till the brighter, warmer days come along again.

Baby's Own Tablets are just what the mother needs for her little ones. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach; break up colds and simple fevers; banish constipation and indigestion and make the cutting of teeth easy. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The family album is coming back it is reported, but its companion, the gas jet that could be turned down low, has departed forever.

Use Minard's Liniment for the Flu.

Near Cardiff, Wales, road repair-pairers have placed a sign reading: "A car on the road is worth two in the ditch."

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin;
it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

PREMIER KING ON THE QUESTION OF RESOURCES

Ottawa.—The whole vexed question of the return of the natural resources to the western provinces was ventilated in the House of Commons recently. In a lengthy speech, Premier Mackenzie King reviewed the history of the natural resources problem and outlined the position today.

In brief, the situation at present, as dealt with by the prime minister, is as follows:

The province of Alberta is now considering an offer from the Dominion government of the return of its natural resources coupled with the payment to it of a subsidy amounting to \$562,000 annually for all time.

Saskatchewan has refused an offer of the transfer of its lands "without any strings attached," and the payment of the present subsidy.

Agreement has been reached to transfer to British Columbia lands in the Peace River block and the railway belt. At present officers of the departments concerned are working on the necessary accounting having to do with the transfer.

With respect to Manitoba, a commission is now engaged on matters concerned with the handing over to that province of its lawful resources.

The Prime Minister made only passing reference to the Seven Sisters Falls lease to the Winnipeg Electric Company. The leader of the opposition had been critical of the haste which Mr. Bennett claimed prompted the government in its return of the natural resources to Manitoba.

Earlier in the session, the Premier continued, the same gentleman had condemned the government in its delay in dealing with this matter. Mr. King remarked, amid laughter, that "the whole reason of the haste was to avoid delay."

For Educational Purposes

Brandon, Man.—That the Manitoba government set aside one-eighteenth of all the natural resources that came under provincial control for educational purposes will be urged as a result of a resolution passed unanimously by the annual convention of the Manitoba School Trustees Association.

Grant Hall Received By Pope

Rome.—Pope Pius granted an audience to Grant Hall, vice-president of the Canadian Pacific Railway, who is visiting in Rome.

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

Scott's Emulsion

is the easy and pleasant way to exact the most out of cod-liver oil to reinforce your body with strength to build resistance.

Scott & Bowne, Toronto, Ont. 25-58

Your food
doesn't do you any good
if you're tired

At the end of a day's work, relieve nervous tension before eating. Wrigley's will refresh and tone you up—so that you're ready to enjoy your food.

Then, after meals, Wrigley's helps digestion, cleanses the teeth, removes all traces of eating or smoking—sweetens the breath.

WRIGLEY'S

W. N. U. 1775

Britain Will Adhere To Locarno Treaty

Has Not Considered Any Other Agreement With Foreign Powers

London, Eng.—Godfrey Locker-Lampson, under secretary of state for foreign affairs, assured the House of Commons that Great Britain would enter into no military agreement with other powers that would in any way be contrary to her obligations to Germany under the Locarno security pact.

He made this statement in answering one of the many questions propounded as a result of recent publication in Holland, of an alleged military pact between France and Belgium, the particular question being: "Can assurance be given that no military discussion will be held with France or Belgium which would not include Germany, in order strictly to maintain British obligations under the Locarno pact?"

The reply was: "The member may be quite sure that we will do nothing contrary to the Locarno pact."

Volleys of questions regarding the alleged Franco-Belgian military agreement, and reports that Great Britain had some connection with it, were fired at the government in the House. Godfrey Locker-Lampson made categorical denial of the rumors, saying:

"Apart from the treaty of Locarno no agreement involving a military commitment has been concluded since the war between this government and Belgium, nor is any military agreement or understanding in existence between the British general staff and that of any foreign country."

Famous Flyer In Accident

Col. Lindberg and His Fiancee, Miss Morrow, Meet With Mishap

Mexico City.—Colonel Charles A. Lindbergh's flying skill saved the life of his fiancee, Miss Anne Morrow, when their plane capsized on landing at Valbeta Field.

The colonel is confined to bed in the American embassy residence with what embassy attaches describe as a "slightly dislocated shoulder blade." Miss Morrow was badly frightened, but not injured.

Colonel Lindbergh was returning from an air trip of several hours with the girl whom he will marry. The aeroplane, a four-passenger monoplane named the "City of Wichita," had been crippled by the loss of a landing wheel and the colonel faced a situation of unusual danger with the chances favoring a crash.

He brought the plane safely to earth and taxied for thirty yards on one wheel with the axle of the missing wheel dragging on the ground. Suddenly the plane pitched forward and turned completely over.

Later, Colonel Lindbergh declared "this is nothing at all. It is not an accident; it is simply a mishap."

Purchase New Plane

Universal Airways, Limited, Order Another Machine For Use In Saskatchewan

Regina.—Speeding up their plans with the opening up of the weather, officials of the Universal Airways, Ltd., ordered for immediate delivery of a new cabin airplane for use in their proposed transport and express service in Saskatchewan.

The new machine will be capable of carrying four passengers or 550 pounds of freight. It will have a cruising radius of 550 miles and will be able to travel at a speed of 135 miles per hour when loaded. It will have a top speed of 150 miles an hour.

Company officials announced that it is proposed to order another machine within the next six or eight weeks. This machine would be the third of its kind purchased.

No Divorce Court For Ontario

Ottawa.—Defeat in the House of Commons of the bill to establish divorce courts in Ontario saw party lines badly broken on the division. Introduced as a private member's measure by J. S. Woodsworth (Labor, Winnipeg North Centre), the bill was defeated by 39 to 63. Premier Mackenzie King and Hon. Guthrie, acting Conservative leader, were not present for the division.

RECEIVES NEW APPOINTMENT

J. M. McKay, newly appointed General Agricultural Agent, Western Lines, Canadian Pacific Railway.

Application Is Dropped

Canadian Northeastern Not Building Railway Into Peace River Country

Victoria, B.C.—The Canadian Northeastern railway dropped its application for right to build into the Peace River country and will not conflict with any plans which may be made in that direction for the Pacific Great Eastern, the provincially-owned line. With its part of its original application dropped, approval of the private bills committee of the legislature was given to the company's request for right to build a line for 285 miles from Stewart, a tidewater port in northern British Columbia, to Fort Graham, in the central northern part of the province.

The Northeastern also dropped its request for right to build a branch up the Finlay river from Fort Graham for 100 miles, pending decision of the future of the government line.

Will Search For Italia Crew

Rome.—Italians who believe that it is still possible to find some trace of and perhaps even to rescue the six men who drifted away with the balloon part of the Nobile dirigible Italia are attempting to raise funds for a new Arctic expedition next summer. They would lease an ice-breaker and expect the loan of a seaplane from the Italian Government.

Piloted Two Zeppelins

Berlin.—Walter Scherz, a veteran helmsman of the air who stood at the wheel of two Zeppelins when they crossed the Atlantic to the United States, died here from balloon gas poisoning.

Employment Situation Shows Improvement

Better In Canada Than In Any February On Record

Ottawa.—Employment in Canada on February 1, was in better condition than on that date in any year on record, according to the Dominion Bureau of Statistics. Reports from 6,391 firms showed a total of 933,943 employees as compared with 921,404 on January 1.

The contraction on the prairie provinces was less than on February 1, 1928. The situation continued better than on the same date in any year on record. Manufacturing and logging advanced, while there was a shrinkage in trade, construction, transportation and communications.

The situation was also better in British Columbia as compared with the same date last year. There was substantial improvement in mining but logging, manufacturing and transportation were slacker.

Dynamite Plot Failed

Explosive Is Found In Office Of Premier Taschereau, Of Quebec

Quebec.—Questioned as to a rumour that an attempt had been made on his life, Premier Taschereau stated that when he went to his office in the parliament buildings at 10:45 p.m. he found a stick of dynamite on the floor with a half-burned fuse attached. The fuse had been extinguished by some agency after burning a few inches.

Premier Taschereau had been attending a committee meeting in the parliament buildings and at its conclusion returned to his office.

Switching on the lights at once he noticed the dynamite lying on the floor.

Premier Taschereau had the explosive removed by police and it was discovered to be dynamite of the most powerful type.

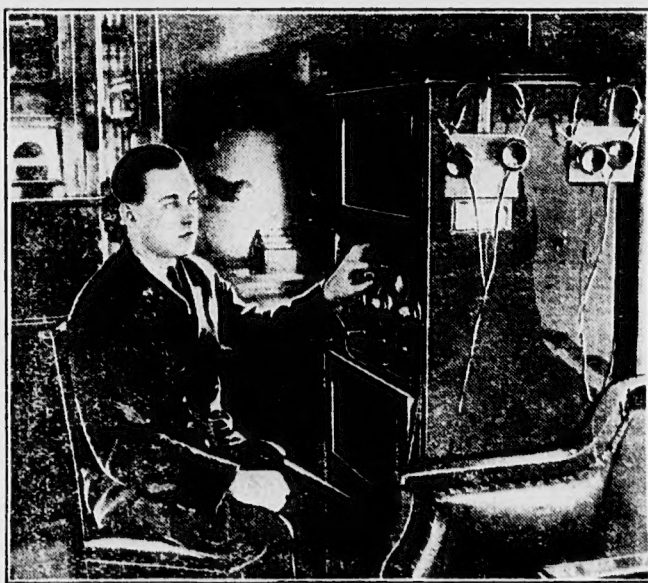

Pioneer Lake Captain Dead

John Cousens Saw First Steamship To Sail Lake Superior

Port Arthur, Ont.—Marine Captain John Cousens is dead here aged 82 years. At Sault Ste. Marie he saw the passing of the Rescue, the first steamship to sail Lake Superior. He sailed on the Chicora, famous blockade runner.

In 1871 before the advent of the Canadian Pacific Railway, he carried mail over the ice route between Duluth and Port Arthur. He served with the Queen's Own in the Fenian Raid and was one of the guard of honor at the reading of the proclamation of Confederation in Toronto, in 1867. Later he served with Wolseley in the Northwest.

Radio Operator Has Travel Record

Trained operators in charge of radio-equipped cars in daily service on the Canadian National Railways travelled a total of 6,134,726 miles during 1928, and the most travelled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his performance. Mr. Anderson covered 153,050 miles on duty, a distance which represents the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains on eight runs on the National System carry radio-equipped cars, the Canadian National Railways being the first in the world to offer radio as part of the service provided for passengers.

The illustration shows Mr. Anderson seated at the receiving apparatus in a library, compartment, observation car.

TESTIMONY GIVEN ON MANITOBA POWER DEAL

Winnipeg.—Negotiations between the Winnipeg Electric Company and the Bracken Government regarding the Seven Sisters Power site were not affected by any advance knowledge of the Hogg report conveyed to the private firm, Edward Anderson, K.C., president, stated recently. Before the Royal Commission investigating charges made by Colonel F. G. Taylor against the Bracken government, Mr. Anderson testified that the agreement was made after "real, genuine, honest, bona-fide negotiations."

The Winnipeg Electric Company would not have made the bargain if it resulted had they known the nature of the Hogg report, Mr. Anderson stated, but would have "held out" for better arrangements. The report submitted by Dr. T. H. Hogg, consulting engineer for the Ontario Hydro Commission, has been regarded as the influence leading the Bracken government toward leasing the Seven Sisters site to the Winnipeg Electric Company.

That negotiations with the Bracken government almost "blew up" owing to the fact that A. W. McLimont, at that time president of the Winnipeg Electric Company, considered the government was "driving too hard a bargain," was stated by Mr. Anderson.

Counsel appearing before the Royal Commission have intended no imputations whatever against the character, integrity or sincerity of Dr. T. H. Hogg, who submitted an expert report to the Bracken government. It was announced by Chief Justice MacDonald, after an examination of documents.

A telegram had been received from Dr. Hogg referring to "insinuations" reflecting on his integrity and made at yesterday's session of the commission. It was not stated whether he would be called to appear, though his telegram had mentioned that he wished to be heard as soon as possible.

Forced To Swallow Knife

Toronto Thugs Use Inhuman Method On Victim

Toronto.—Angered at the small amount of money they found on his person, two thugs forced Angelo Avgusta, 35, Toronto, to swallow a jack knife, more than four inches in length.

Angelo is now in hospital where doctors hope to save his life.

According to the victim one of his assailants attempted to make him swallow the knife with the blade open but his accomplice interfered and the blade was closed.

Women Refused Franchise

Quebec.—By a vote of 50 to 16, the Quebec legislative assembly killed the bill introduced by William Tremblay, Conservative M.L.A., for Maisonneuve, to give the women of Quebec the vote in provincial elections. This is a gain of five votes for the cause of suffrage as compared with last year.

"PINKHAM'S COMPOUND IS WONDERFUL"

Read This Letter from a Grateful Woman

Vanessa, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—MRS. MILTON McMULLEN, Vanessa, Ontario.

WILL LICENSE DRIVERS

Licensing of drivers of vehicles is to be authorized by an act to be passed at the present session of the Alberta legislature. Announcement to that effect was made in the speech from the throne at the opening of the house but, as yet, the bill, or required amendments, has not been presented to the house.

The Alberta Motor Association took a clear-cut stand in favor of such licenses when a meeting of the provincial executive was held last year. It then expressed its readiness to back any movement that had for its objective the licensing of all drivers.

There is no doubt that the time has arrived for the government to take action on this matter. Reckless driving is entirely too common, and has become a menace to traffic on the highways of this province. There must be such penalties as suspension or cancellation of licenses when car operators are found to be a danger to the thousands of people who are careful drivers. To obtain that control, licenses will be required.

No doubt the fact of the act being passed will act as a deterrent to reckless and dangerous driving, or operating a car while intoxicated. Losing one's right to drive will be a much more serious blow than a fine, and it will mean that a forward step has been taken to make Alberta's highways safe for its own people and for the tourists who are planning to come here this year.—Good Roads Magazine.

WHEAT POOL NOTES

A tentative list of points at which the Alberta Wheat Pool will build or buy elevators during the coming season has been issued from the Pool office. The total number of points is fifty-six, but the list, it was pointed out, is by no means a final one.

The Alberta Pool has now 318 elevators located at country points, and the additions will bring the total number up to 374. The list may be enlarged considerably as the season develops, but the increase will depend upon various factors.

The number of elevators which will be built and the number purchased will depend on the price asked by elevator companies for elevators they are willing to sell, and also on the price of lumber.

Whenever the Pool decides to go into a new point it is usual for the organization to make an offer to purchase if there is an elevator there which will meet the requirements. In this way the Pool has acquired a considerable number of houses and avoided a wasteful duplication.

A number of points are under consideration for a second Pool house because of extraordinary large deliveries of Pool wheat, but a definite decision as to these has not as yet been reached.

Testing of seed wheat is strongly recommended by the Alberta Wheat Pool. By seeding a couple of hundred grains of sample of seed to be used, in a flower pot or box, and keeping the soil moist, a good idea is obtained of what the seed will do when placed in the ground next spring. Clean, pure seed that will germinate evenly will increase the bulk and quality of the crop.

LOCAL & GENERAL

Mr. W. Sutherland was a Calgary visitor on Saturday.

Mrs. E. Kercher left on Monday for Souris, Man.

Mr. N. Lammle was a visitor to Three Hills this week.

Mr. and Mrs. Fred Harder were visitors to Calgary this week.

Miss Jagoe spent the week end at her home in Calgary.

Mr. Roger Barrett was a visitor to the southern city on Tuesday.

Mr. Michael of Bowden is now employed in Studer's store.

Mr. Howard George was a week-end visitor to Calgary.

Miss Laura Smith was a visitor to Calgary on Saturday.

The Tuxis Boys met at the home of Mrs. J. Phillipson Tuesday evening last.

The W. I. will meet at the home of Mrs. W. J. McCoy on Friday, March 8th.

The regular meeting of the local W. C. T. U. has been postponed. Further notice will appear later.

Messrs. Moyle, Davies and Walsh are attending a convention in Edmonton this week.

Mr. Ivan Sutherland spent the week-end in Olds visiting with old school mates.

Mr. and Mrs. Geo. Parsons and Mrs. R. Lantz are leaving the latter part of this week for England sailing on the Montroyal Mar. 15.

Mr. and Mrs. W. A. Teskey and daughter were visitors to Olds Sunday last at the home of Mr. and Mrs. Branscombe.

Mr. and Mrs. N. S. Clarke returned last week from an extended trip to Vernon and Vancouver, and San Diego, motoring down to California from the Coast city.

Miss Betty Lasco who has been employed at Studer's left this week for a few weeks' visit at her home in Manitoba after which she will go to California.

Richard Dix in another new fun whirl. He dons a marine uniform. See him with Ruth Elder, of Atlantic fame, soar in the skies! See "Moran of the Marines," at the movies Saturday, March 9th.

Coming Events

C. G. I. T. Concert including two plays, choruses, etc., at the Opera House, Friday, March 8th, 8 p.m.

Keep in mind the I. O. O. F. Annual St. Patrick's Dance in the Opera House, March 15th. 08-5c

Westminster Glee Singers, the finest vocal organization in all England, appearing at the Mayfair Theatre, Olds, Monday, Mar. 18. English, Irish, Scotch and Welsh songs of the sea and humorous quartettes. One performance only at 8:15. Admission 75c & \$1.00, plus tax. 10-2c

The Alberta Pool Elevators have to date handled close to 45 million bushels of grain from the 1928 crop. The leading Pool elevator is at Foremost where 345,000 bushels of grain have been handled, 330,000 bushels of wheat and 15,000 bushels of rye. Foremost is located in Southern Alberta in a district which was at one time considered to be in the "dry belt."

Listerine and Halitosis, because they are as inseparable as a pair of pants.

GLIMPSES FROM THE PAST

20 YEARS AGO

Married—Mr. Bert Wilson and Miss Nellie Berscht, on Feb. 17th, 1909, Rev. H. Goudie Officiating.

Mr. and Mrs. H. L. Reimer are spending a few days with Sunny-slope friends.

Mr. and Mrs. W. G. Liesemer returned on Sunday last from a visit in Ontario and the States.

At the Liberal convention here J. E. Stauffer was selected as candidate from the Didsbury constituency in the Liberal interests at the coming election which takes place March 22.

15 YEARS AGO

W. T. Wigglesworth of Shaunavon, Sask., and G. A. Wigglesworth of Calgary were Sunday visitors at the home of their parents.

P. Tuggle, who has been visiting with his uncle, Mr. H. Tuggle, left on Tuesday for his home in Kansas.

ITEMS OF INTEREST

There were 87,221 auto licenses issued in Alberta last year, according in the annual report prepared for the legislature by the Provincial Secretary. This total was 14,857 in excess of the number for 1927, when the aggregate was 72,364.

Calgary led the way in having the largest number of cars, showing a total of 11,998 licenses. Edmonton was next with 10,337.

The northern frontier of Alberta's agricultural area has been pushed backward to a very marked degree during 1928 according to the report recently issued by the Dominion Lands Administration Branch of the Department of the Interior, Ottawa. Of the 8,698 homesteads filed on in Alberta during the year, 4,563 were in the Peace River district. Corresponding figures for 1927 are 2,725 homesteads filed on in the province of which 1,135 were in the Peace River. In this respect Alberta shows greater activities than either of the other prairie provinces. In Saskatchewan 5,493 homesteads were taken up in 1928 as compared with 2,819 in 1927 and Manitoba shows a decrease from 699 in 1927 to 620 in 1928.

Allowing 160 acres to each claim, Alberta's area of occupied farms has thus been increased some 1,391,630 acres in 1928.

In other words, the snow-fight beloved of youth. And there is plenty of soft snow at Quebec, where an elaborate program of winter sports is now under way. Perhaps the main events to which the people of Quebec and many hundreds in all parts of the continent are looking forward, are the Fete de Nuit and the Grand Festival on the city walls scheduled for February 6, the Annual Curling Bonspiel from the eleventh to the sixteenth, the Mardi Gras, the ice pageant and Skating Carnival of the fifteenth, and the great International Dog Team Derby of 120 miles, which will keep the whole city in a state of feverish excitement between the twenty-first and twenty-third, inclusive. Between now and March 5, every day will have its snow or ice-sport feature.

Your Subscription ?

Didsbury was represented by two local youths, Geo. Geiger and F. Carleton in the Provincial elimination boxing contest held in Calgary this week. Geiger won the finals in the novice lightweight (135 lbs.) and Carleton was outpointed in the finals of the juniors (90 lbs.) by W. Marshall, Calgary.

The whist drive and dance held under the auspices of the O.E.S. Monday evening was well attended by young and old. Mrs. J. A. McGhee and Melvin Hugot won premier honors and Mrs. W. Keith, Mrs. Sheils and Gray Sharp the consolation.

BAPTISM AND THE LORD'S SUPPER

Golden Text: "This do in remembrance of Me."—1 Corinthians 11:24.
Lesson: Matthew 3:13-17; 28:19, 20; Acts 2:38, 41; Romans 6:1-14; 1 Corinthians 11:23-29.

Devotional Reading: Revelation 7: 9-17.

Explanations and Comments

Christ's Commission To Baptize All the Nations, Matthew 28:19, 20.—Upon a mountain in Galilee after the resurrection of Jesus, the eleven disciples saw Him and worshiped Him. He told them of His universal dominion ("All authority hath been given me in heaven and on earth"), and gave them His world-wide commission to make His power a reality: "Go ye therefore, and make disciples of all nations."

"Remember, fellow Christians, how wide was the horizon of Jesus. Our horizon widens from cradle to home, school, city, country, and, with some, perhaps, to the last man. But to Jesus the outside rim of the earth was the first horizon that He saw, and the last. When He was born, good tidings came unto whom—the Jews? 'Unto all people'; 'among all nations'; 'throughout the whole world'; 'to every creature'; 'to the uttermost part of the earth'; are Christ's words. 'Go ye into all the world' is his limitless command, his boundless expectation."—Maltbie D. Eabcock.

Jesus directed His followers to baptize disciples into the name of the Father, and of the Son, and of the Holy Spirit; teaching them to observe all things whatsoever He commanded them. "Baptism is (1) into the name of the Father, as our Creator, Preserver, and Benefactor, who rules us, as free agents, by His love. It is (2) into the name of the Son; in baptism we assent, as Peter did, 'Thou art the Christ, the Son of the living God,' and consent, as Thomas did, 'My Lord, and my God.' We give ourselves to be taught, and saved, and ruled, by Christ. It is (3) into the name of the Holy Spirit. We give ourselves to His guidance, as our Sanctifier, Teacher, Guide and Comforter."

And then Jesus gave His wonderful words of comfort and encouragement and cheer: "Lo, I am with you always" (not will be, but am), "even unto the end of the world!"

"Our responsibility for missionary work is patent in the command of Christ; our power for that work is perfect in this great promise of Christ."

What "It" Is

Perhaps this can be applied generally to all husbands, but a woman in the Wilkesden police court recently defined the word "It" as used by a famous woman novelist. The clerk pointed to a man in court and said "Is that your husband?" She replied, "Yes, sir, that's it."

Nobody ever has to take a tonic to create an appetite for flattery.

The Good Old Days

Maybe two can live cheaper than one, after all. Mr. and Mrs. Tom Lovelock, of Lyneham, England, in celebrating their golden wedding anniversary, revealed that they were married when Lovelock was making but \$2.50 a week and that shortly after his salary was reduced to \$2.25.

LIFE WAS A BURDEN

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in a decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a further supply and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. To sum up I can now say that I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price, 50¢. Try them today.

Mother (giving afternoon tea instructions): "Now, remember, Willie, when these cakes are handed round you must take a plain bun from the bottom of the dish."

Willie (disgustedly): "Just my luck! The bargain basement again!"

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Scientist says life evolved in a series of jumps, and a cursory inspection of our thoroughfares convinces us it is still evolving that way.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

A philosopher is a man who never feels badly after he has made an ass of himself.

A Power Of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

There are 10,000,000 accidents in the United States each year.

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.

Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking, or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

CHAPTER XV.—Continued

For a moment Connie was silent. "When—when my dreams come true," she responded with an embarrassed smile.

Then he told her of the city and its ways and the things people did. She listened, not with amazement, but with a contented smile, as though what he told her was confirmation of her dreams. But when he told her of the grand opera, the music, the costumes and the singing, her grey eyes wide with longing, she sighed deeply.

Donald's voice trailed to a drowsy close; his chest rose and fell regularly, his features relaxed. He felt as though he were floating, exquisitely floating, on a sea of fleecy clouds that was bearing him softly away. A delicious languor enthralled him—an enchantment drowsy and dim. He felt himself drifting, drifting. He was asleep.

The willows at the lower end of the meadow were pushed cautiously aside, and Hand's head appeared in the opening. For two days he had lain hidden awaiting an opportunity to waylay Donald. The day after the fight he had boarded the train for the coast, but had slipped from the car at the station below.

His face—unprepossessing at its best—was now a horrible sight. The thick lips were swollen and cracked, the eyes discoloured and puffed, and the broken teeth bared in a snarl as he saw Donald lying by the stream. Every hour since the fight Hand's hatred for Donald had grown blacker. He would show him that he, Ole Hand, deserved his reputation as a fighter. He would hold this crippled man helpless while he showered blows on his unprotected face, make him cry out for mercy on bended knees; perhaps kill him. His hatred grew hotter and deeper as he watched him lying peacefully beside the girl who had been the cause of the fight in which he had been ignominiously whipped.

Connie sat gazing down on the sleeper. A sudden thought seized her bringing a warm flush to her cheeks. Why not? No one would ever know. Would she dare? She glanced timorously about her, then leaned slowly over, her curls falling about her face, and touched her soft lips to Donald's cheek.

A bluejay screamed derisively. Connie came to her feet, her face crimson. Donald stirred, opened his eyes, and painfully raised himself.

INDIGESTION RELIEVED . . . QUICKLY

This Purge Vegetable Pill aids nature as a laxative in its digestive duties. Often one of these little pills taken after meals or at bedtime will do wonders, especially when you have overeaten or are troubled with constipation. Remember they are Dr. Carter's formula, young and old can take them. All Druggists 25c and 75c red pills.

CARTER'S LITTLE LIVER PILLS

LADIES WANTED—TO DO PLAIN and light sewing at home, whole or spare time; good pay; work sent any distance; charges paid. Send stamp for particulars. National Manufacturing Co., Montreal.

W. N. U. 1775

"I'm sorry, Connie," he apologized. "It was very rude of me to go to sleep."

A moment later he walked down the hill. Connie accompanied him a short distance, then turned up a steep path, and from a high, rocky ridge she watched his retreating figure as he turned toward the dam.

A huge bucket on a cable, that had been used during construction for carrying men and material across the roaring chasm below the falls, still hung above the boiling waters.

For Donald there was a certain thrill, a keen exhilaration, in swinging in mid-air in this crude conveyance. He stepped into the bucket and with his one good arm pulled it along the rusty cable.

The Breed, hidden near the trail saw Donald as he walked toward the dam. The venomous look in his eyes gave place to one of strained interest as he saw the two men skulking menacingly after the unsuspecting man. With a feeling of malignant exultation, as he sensed disaster to the man he hated, he hobbled to the trail and furtively followed.

From the heights above Connie saw the sneaking figures as they crouched low against the edge of the dark spruces and at once divined their murderous object. For an instant she was paralyzed with terror. Her lips refused to move and her limbs grew numb.

The men moved cautiously as they approached their intended victim, fearing that he might be armed. As Hand saw Donald suspended over the river a look of fiendish elation crossed his features. Here was a chance to dispose of his enemy with no trace of the crime. He tore a fire-axe from the wall of the tool house and ran to the swaying cable.

"Joe! Joe! Stop them. Stop them!" Screaming again, she plunged straight down the hillside in a mad race to reach the scene of action. Running like a deer, stumbling and falling, her breath coming in short gasps, she ran wildly on. Snarls of the thorny crabapple tore at her, devil's-club lacerated her face and hands, but she felt no pain. "O God," she prayed aloud, "help me to save him! Help me save him!"

Donald's face blanched at the sound of the axe as it bit into the heavy cable. He looked down at the jagged rocks and seething waters below. Then with closed eyes and a prayer on his lips he tore in mad frenzy at the rope. Desperately he tugged with both hands, although the pain from his broken wrist sent a wave of torment up his arm that sickened him.

No man can measure the speed of thought in a crisis; even the sluggish brain of the Breed functioned rapidly. Connie was not for him. Her happiness was bound up in the man working feverishly at the haul-back. There was not one chance in a million that he would gain the safety of the cliff before the strands parted to plunge him to eternity. As he heard the crashing of Connie's slender body as she tore down the hill, a softness crept into his eyes. With a speed incredible in one with his pitiful deformity, he ran in a series of bounding steps to the edge of the bluff. The noise of tumbling waters drowned the sound of his approach. Just as Hand raised his axe for the final blow, the muscular arms of the Breed were flung about him. Emitting a startled curse, the big man turned and with a twist of his powerful shoulders flung his dusky assailant to the ground. As he rose Hand swung viciously at him with the axe.

With a quick movement the Breed dodged, and the weapon flashed over his head, flew from the big man's hands, and struck his confederate a

glancing blow on the shoulder that brought from him a howl of pain. Again the Breed's arms closed about his adversary's waist. Mad with the pain in his shoulder, the foreigner drew a long, keen knife, circled warily about the two wrestling men until he found an opening, then plunged the knife to the hilt in the Breed's left side. The stricken man slithered from his opponent's arms and fell a crumpled heap to the ground.

Sick and giddy, Donald stumbled from the bucket, seized the axe and advanced weakly toward Hand. Hand's accomplice, taking one look at the prostrate body, turned and fled terror-stricken to the woods. Hand hesitated for a moment, then followed heavily after.

At this moment, Connie, with clothes torn and hair dishevelled, broke from the woods, and with a cry of pity flung herself to the ground by the Breed's side and placed his head on her lap. The eyes of the wounded man flickered slowly open. He tried to speak, but a strong convulsion shook his frame from head to foot and he writhed in desperate agony.

Connie's face as she lifted it to Donald was drawn with grief. "Get me some water please," she said brokenly.

The dying man's lips moved. Connie leaned closer.

"I—I—love you," he whispered faintly, "I—saved him—for you."

A ghastly pallor spread over his features and his lips were widely parted in a struggle for breath. Again his lips moved in a fluttering whisper. "Connie—will—you—kiss me?"

As Connie pressed her tear-wet face to his the pain-contorted features relaxed in a smile of wonderful peace and his eyes closed.

When Donald returned Connie's head was bowed and she was weeping softly.

"How is he, Connie?" he questioned gently.

"He's dead."

Donald removed his hat and knelt with bowed head.

"He died for me," he choked.

"And for me," she whispered inaudibly.

CHAPTER XVI.

Lest we tire of monotony, Nature gives us a change of colour for each of the flowering seasons. Flowers of every hue may be found through the different months. Pink for May, red for June, blue and pink for July, and during August royal robes of gold and purple clothe the hills and valleys.

The last week of August brought

to Summit Lake a pageantry of colour that the Coast region is denied owing to the persistent rains that retard the ripening of the leaf. The deciduous trees were already withdrawing their life-giving fluid from the leaves to store it in their roots until spring. The willow, vine maple, birch and alder along the creeks and lake-shore held touches of autumnal colouring; while on the hills the yellowed leaves of the cottonwood were brilliant in their setting of sober dark green conifers.

A gaudy red were the vine maples, but there was a leafy beauty greater than theirs. The flowering dogwood blazed from every nook and cranny. The ripening of the dogwood gives to its leaves a flame that burns with a fierce glow; a glow that further ripening deepens until its crimson flush becomes the loveliest hue of the British Columbia woods.

The fireweed, or willow herb, that in July gives to the open spaces a gorgeous tint of bluey pink, were now loosing a flock of seeds to float away like tiny parachutes. Each small bit of fluff held a minute germ of life that would build a plant as large as its parent when, dropped by the friendly wind, it reaches a

fertile spot. The stately cottonwoods were sending out a life-fluff as tiny as that from the smaller plants. Thistles, cat-tails and asters hurried to join the silken clouds until the air was misty with these germ balloons, seeking their winter's rest. The red elderberry and its magenta neighbour, the thimble berry, with its truer Scotch cap, gave to the woods a material flame.

A curious timidity had come over the birds; not only were they quiet, but they were no longer to be found in their usual haunts. In some retired spot they were moulting. While the weather was at its best, and food was the most plentiful, they were dressing themselves in a new set of feathers for their long flight to the south. The tops of the tall pines were filled with sweet twitterings, of flutterings out and in, wing trails and quick short flights. A flock of waxwings had gathered for the migration. They would not leave for some time yet, but the change had come. Birds from the north had arrived, creeping south by easy stages, taking plenty of time in their journey—the freest creatures that live, staying or going as they feel inclined.

(To Be Continued.)

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

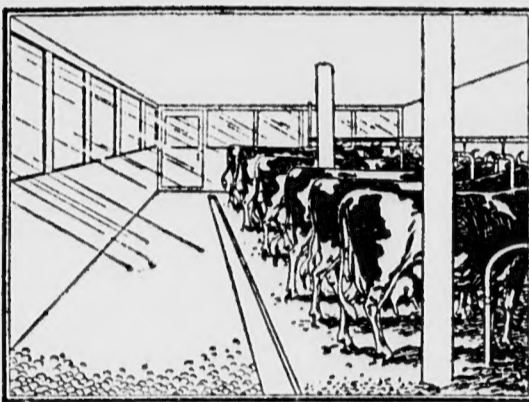

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

First Interim Payment 1928 Pool

(Continued from Page 1)

Our Pool Directors had a difficult situation facing them at date of setting this interim payment with Argentine coming on the market with a very large crop uncontrolled in its marketing, and Australia producing fifty million bushels more wheat than last year. It has happened before where over-optimistic leaders of Pool organizations in other countries have gone ahead with liberal early payments, only to find that they were forced to sell heavily on falling markets in order to maintain the required margin which excessive payments had impaired. Should the Canadian Wheat Pool be forced at any time to liquidate any considerable part of their holdings, readers can well imagine what effect it would have on market levels.

The Pool is functioning splendidly and when the crop season closes our members will have received the best average price obtainable on the world's markets for their wheat.

Any delivery coupons still held by Pool members should be forwarded immediately to head office of Wheat Pool, Calgary.

WESTCOTT

The Westcott W.I. met at the home of Mrs. Perrin on Thursday last. The topic for the afternoon was Home Economics and the roll call was answered by telling how to can meat or vegetables. The host had prepared a "Turkey" contest, as well as arranging for several musical and vocal numbers. The next meeting will be held at the home of Mrs. Ira Levagood on Mar. 28th. The topic will be "Agriculture," and will be in charge of Mrs. Martin Jacobson.

DIPHTHERIA IS PREVENTABLE

On two occasions recently spectacular flights in an aeroplane have been made to carry precious anti-toxin to diphtheria patients. On the first one, two brave men risked their lives and all that death to them would mean to their families, to carry their life-giving cargo to the far North. On a second, a nurse and anti-toxin were taken to a stricken

Auction Sale

I have received instructions from Mr. Bruno Jacobs to sell by Public Auction at his residence (old Dick Oliver residence) opposite S.D.A. Church, on

Saturday, March 9

at 1:30 o'clock, the following:

J. W. PHILLIPSON, Auctioneer

family, only some sixty miles from Edmonton.

The story of the far north is well known now, and needs no recapitulation. The story of the farm home near Westlock is mere tragedy. A winter storm, drifted roads, a whole family stricken with diphtheria. The mother and one child dead, and only a chance visit from a neighbor reveals the terrible story. The telephone, a doctor, an aeroplane, a nurse, anti toxin, and other members of the family are saved.—Yet diphtheria is preventable.

Every home can be freed from the menace of this dread disease. Immunize every child. It is a simple thing to have done. Any physician can do it. It entails no hardship or pain. Surely it is a small price to pay for immunity from such a tragedy as struck that once happy home. Let this province lead the way in making the art of living a little safer for our children.

Further information may be had from the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

ROD AND GUN

Featured in the March issue of Rod and Gun and Canadian Silver Fox News are several splendid stories and articles dealing with all kinds of outdoor life in Canada. Among these are yarns of the ever popular sports of angling and hunting ducks and big game written by men of long experience. The current article in the

pages of this national sporting magazine by Robert James, "The Nelson River Trail" gives a wonderfully descriptive picture of the trials of a party of amateur trail breakers on a trip by dog team in the far north.

The regular departments on guns and ammunition, trapping, angling, dogs and the silver fox industry are full of authoritative material. J. W. Winslow, popular writer on natural history, this month commences a new series of articles on the smaller mammals.

Bill: "I've named my car The Hen." Dick: "Is that so, Chevrolet any eggs?"
